

AUTOKONTROL DATA-LOGGING SPEED-LIMITER

The Autokontrol data-logger is an option for the speed-limiter system that records vehicle speed information

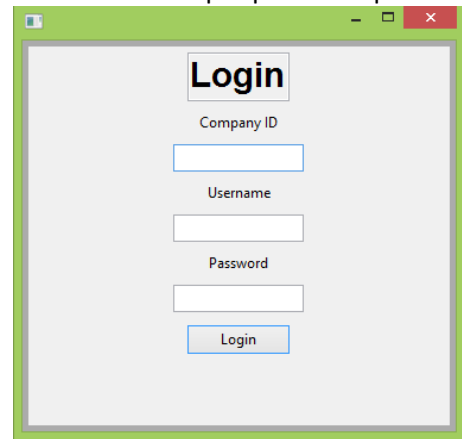

ADVANTAGES & FEATURES

- Records 720 hours of vehicle movement information.
- Flags information every minute.
- Records over-speed as an event.
- Records when the vehicle is stationary
- Records tampering and when the power is removed from the unit
- The data is accessed by UPS cable. The software is free and uses a dedicated website.
- The information can be exported to Excel, or viewed as plain text, or HTML format
- 3 year warranty on the hardware.
- No monthly or ongoing fees
- Designed and manufactured in the United Kingdom

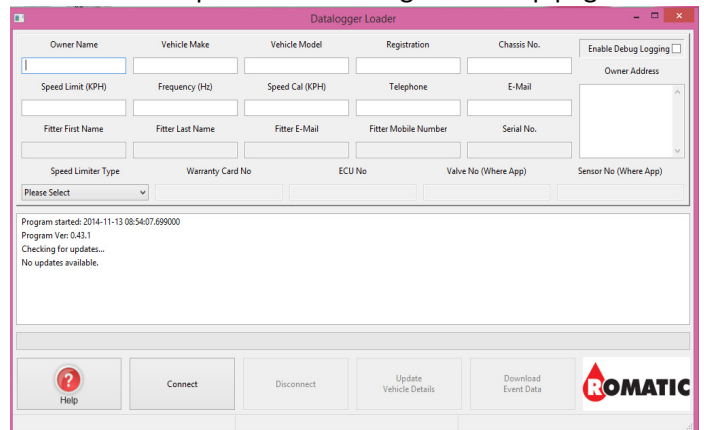

DATA-LOGGING BENEFIT

- The data-logger provides documented evidence of the vehicle speed and when it was stationary. Events such as tampering or power removal are also logged.
- The events and vehicle movements are date and time stamped.
- Each data-logger equipped vehicle has its own ID for reporting purposes.

The data and set-up is password protected

Vehicle speed data viewing and set-up page

Example of speed data in plain text below. The *Flags* column will also show when the vehicle was stationary, tampering events and the removal of power

	Time/Date	Speed (KPH)	Speed (MPH)	Flags
1	03:11:35 21/05/14	84.1	52.3	limp mode
2	03:11:37 21/05/14	84.1	52.2	
3	03:11:56 21/05/14	84.1	52.2	
4	03:12:56 21/05/14	96.9	60.2	over speed
5	03:14:03 21/05/14	91.2	56.7	
6	03:15:03 21/05/14	121.6	75.5	over speed
7	03:16:02 21/05/14	121.5	75.5	over speed
